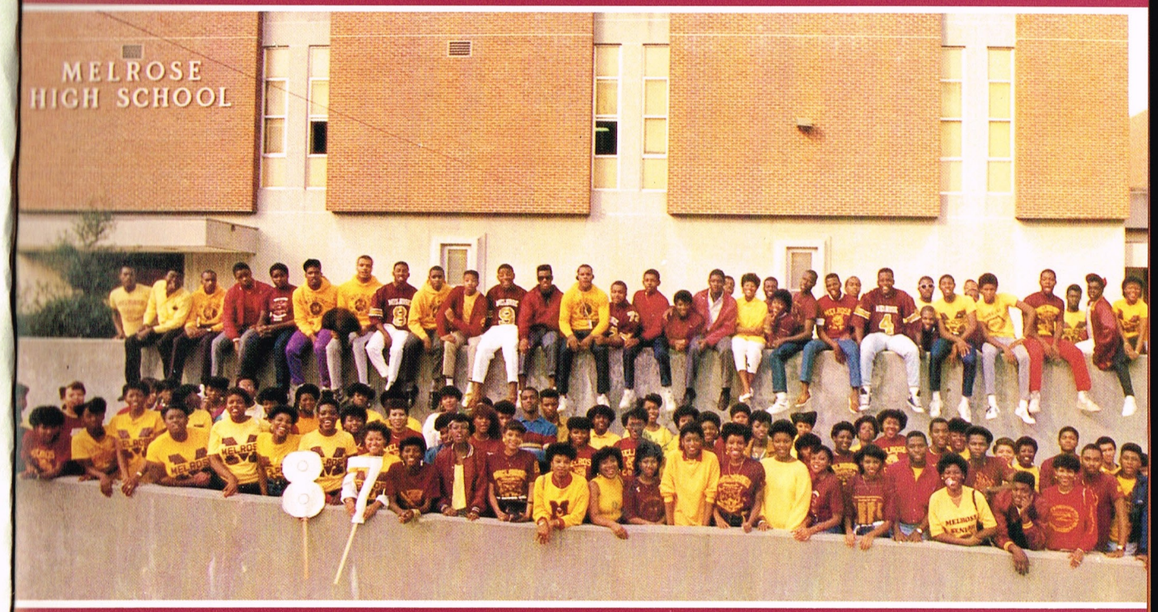
Eighty Seven
GOLDEN WILDCAT

Golden Wildcat 1987



Melrose High School

2870 Deadrick Avenue

Memphis, Tennessee

Dedication

Some people view a rose and see only its prickley thorns, others view the rose and see an exquisite masterpiece of God, with a fragrance that permeates the air. So it is with the individual to whom this yearbook is dedicated. Some students see her as a strong teacher, with rigid rules and regulations. She's always prepared for whatever each day brings, a scholar whose intellectual depth is immeasurable and the patience to wait until a student's change comes.

Others view her as a quiet unassuming, fragile person who has the stamina to weather the storms of raising four children and yet have enough love and understanding to share with others. She has wry wit and keen perception.

We see her as a friend, because she is honest with us, even when it hurts. She pushes us forward, acknowledges our faults and helps us to grow. She accepts us where we are and attempts to move us to higher intellectual heights.

It is to Mrs. Elizabeth Barton, our friend and teacher, that we dedicate the 1987 editon of the Golden Wildcat.

TO A TEACHER

It is a high and solemn place you hold.
No mere position has life given you,
But a vocation honored from of old,
Yet challenging with vistas ever new.
You must be strong, and wise, and unafraid.
You stand between the world that is today,
And what in future years it can be made.

If sometimes in the hurry of it all,
When your heart asks what your reward is worth,
Your work may seem too hard, rewards too small;
Yet you stand with the favored ones of earth.
Love trusts you with the best it can possess.
The future trusts you with its happiness.

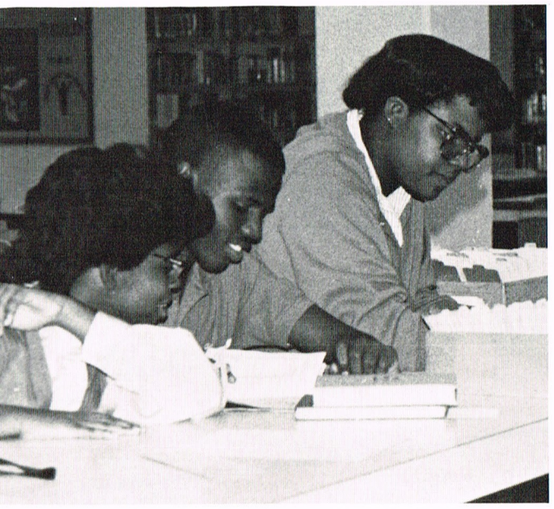
Academics

Guidance

The counselors of Melrose High School attempt to assist students in reaching their fullest potential through a Developmental Guidance Program. This program consists of the following services: assessing students' strengths and weaknesses, assisting in decision making, developing positive attitudes, selecting a course of study in high school, assisting students with personal problems, assisting students in making career and educational decisions, and developing talents and abilities.

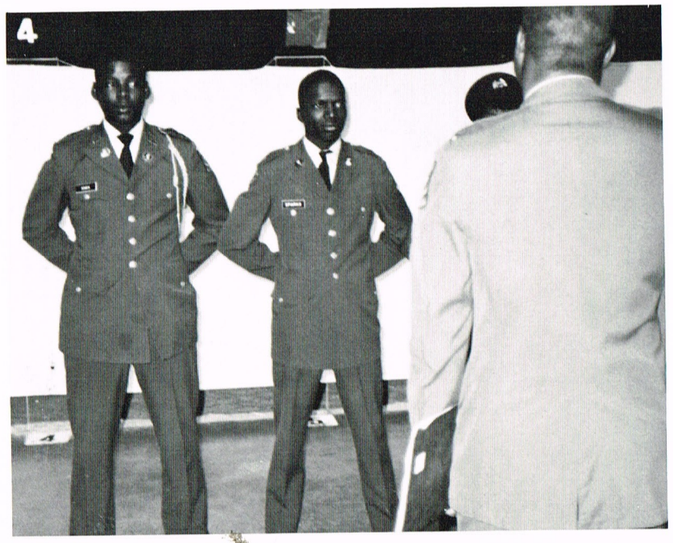
Media Center

The Melrose Library Media Center is one of the most comprehensive in the state of Tennessee. It contains a large inventory of both printed and nonprinted audio-visual materials and equipment. The center can accommodate two classes in the main area. It has a large viewing room and ten study rooms for individual or small group use. The reference section provides much historical, as well as current information.



Army ROTC

Army Junior R.O.T.C. is offered to students fourteen years of age or older, at twenty-six secondary schools in Memphis, Tennessee. All courses include instruction in Army oriented subjects, and each has a standard organizational structure to develop student-cadet leadership under the supervision of a Senior Army Instructor.



Art

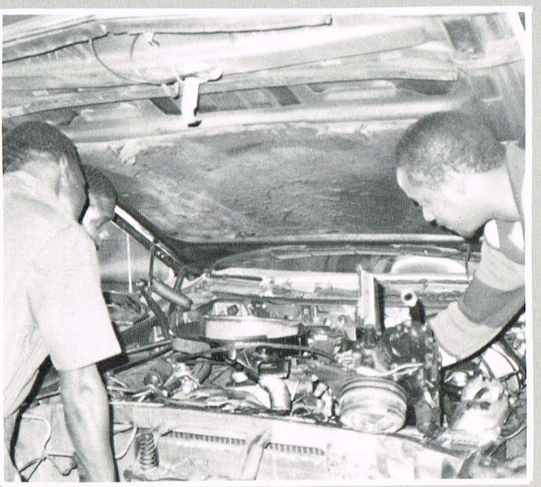
The objectives of the Art Department at Melrose are to enrich the minds and enhance the creative skills of the students, enabling them to become more appreciative of the arts. This course will provide a foundation for those students pursuing a career in the arts, whether as an art teacher, painter, sculptor or commercial artist.

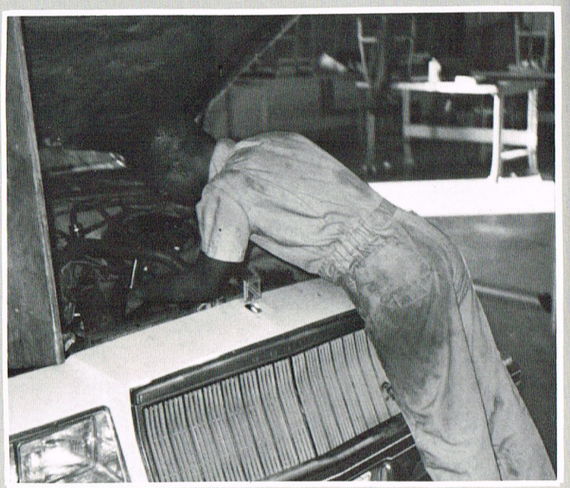
Auto Body

Auto Body is a course designed to give students hands-on training in the repair of damaged vehicles. Students gain experience in welding, working sheet metal, straightening frames, and various types of painting. Upon the completion of this course, students possess job skills for entry level positions in the field of auto body repair.

Auto Mechanics

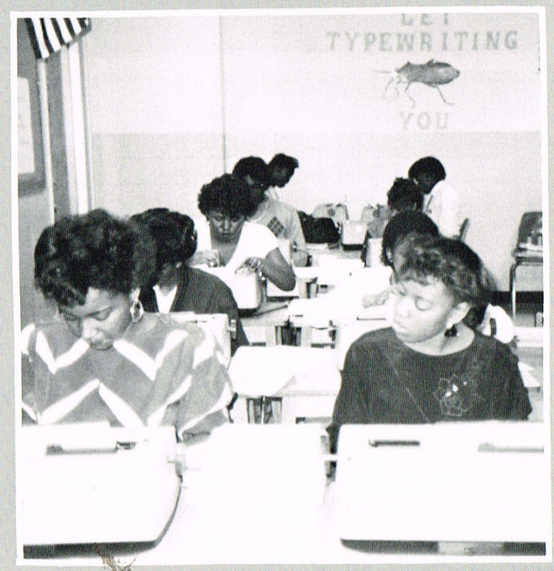
Auto Mechanics offers introductory and advanced courses designed to teach students the use of hand tools, automotive electricity, and the function of automobile parts. Students receive instruction in automobile engines, alignments, tune-ups, auto diagnosis and general automobile servicing. Instructional activities include patron work on automobiles which allows students to gain practical experience.





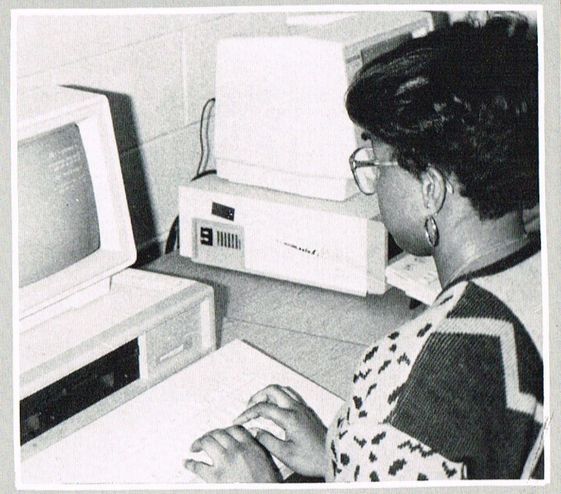
Business Education

Business Education provides for the development of knowledge and skills that will permit students to manage their personal business affairs and to resolve economic problems. Courses are offered in accounting, shorthand and typing. VOE includes keyboarding, building of advance typing skills in speed and production and computer skills. The ability to recognize when and how to use word processing and to meet organizational needs is further developed as an integral part of the program.



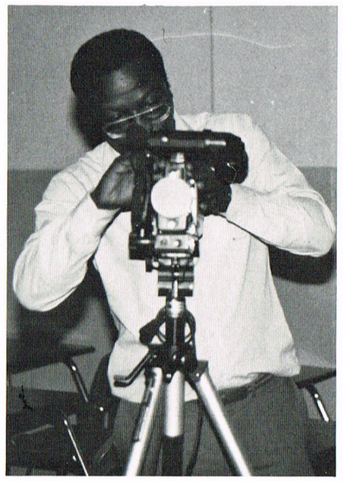
Computers

The history of computers, basic programming language, applications and logical problem solving techniques are emphasized in the beginning course. Basic II provides the student with an opportunity to refine and expand skills learned in the introductory course. Sequential and random access file processing, word processing, spreadsheet, graphics and data base are implemented.



Broadcasting

The Broadcasting class at Melrose, known as Broadcast Orientation, is an introduction to radio/television broadcasting, with emphasis placed upon the history and development of the broadcasting industry. Students who possess a desire to understand the world of broadcasting communications learn what it is, how it works, and how it interacts with society. The students are also drilled on the rules of the media world and how important fairness and truthfulness are in reporting.



Cosmetology

The art of Cosmetology refers to the actual performance of the many beauty culture practices. It varies with the degree of skills developed by the licensed cosmetologist. The Melrose Cosmetology Department offers training for a life time career in one of the world's largest and most respected industries, Cosmetology.

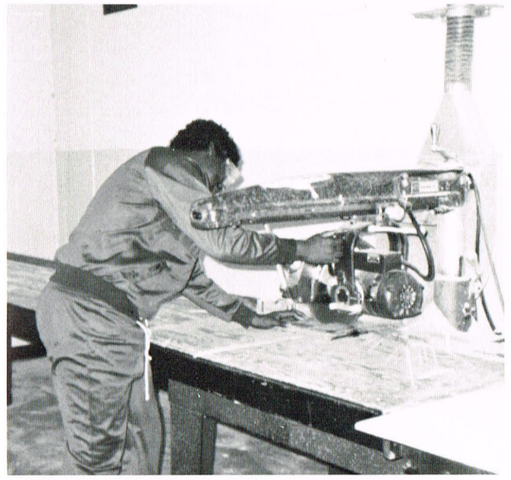
Electronics

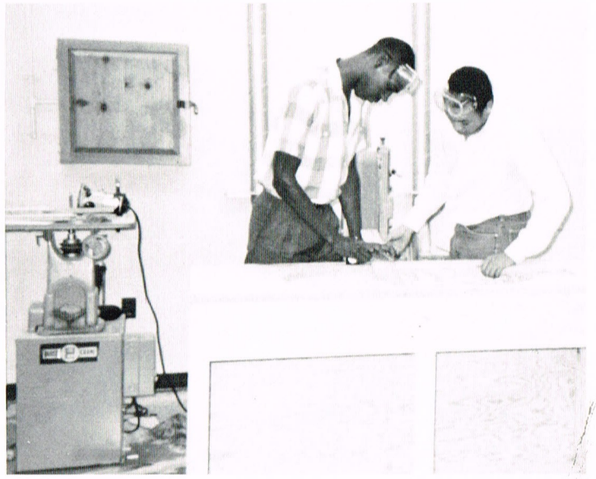
Electricity is a course that offers instruction in safety, shop, process, electrical devices, magnetism and DC/AC electrical theory.

In Electronics, students are instructed in DC/AC electricity, semiconductor and vacuum tube devices, and basic electronic circuits. In both courses, students gain experience for a number of jobs in the field of electricity and electronics.

Cabinet and Fixtures

The Cabinetmaking Department at Melrose High School places great emphasis on wood as an essential part of our everyday lives. Students gain skills through the use of many tools and machines, and they learn to appreciate "good design." The students learn the many different uses of wood and they are able to put their ideas into use by making their own personal projects. The students' experience in the cabinetmaking class will eventually help them if they pursue a career in cabinetmaking or woodworking.





Textiles and Clothing

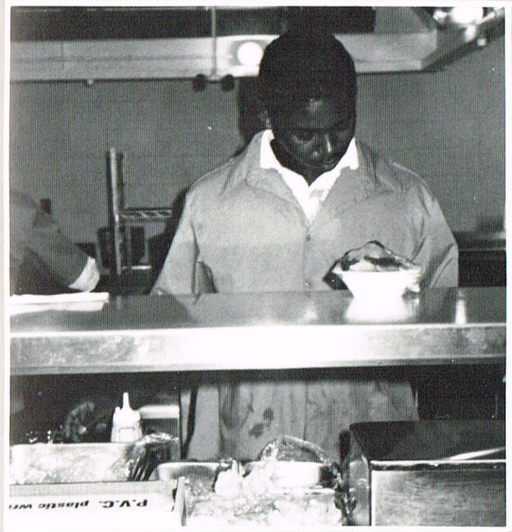
In the Textiles and Apparels class at Melrose, students are taught the importance of textiles in everyday life. They are taught how to care for textile products, how to construct clothing as well as how to make alterations, and are given an overview of jobs available in the textile industry.

Foods and Nutrition

The Foods and Nutrition classes at Melrose are involved in learning basic nutritional knowledge and food use and preparation. Students are divided into small groups where they are able to practice their cooking skills within six kitchen units. The skills acquired in the class can be used in the work force, and are beneficial for personal use as well. The students in the class are members of the FHA and participate in sponsored activities.

Foods Management

This course is designed to help students acquire knowledge and skills for entry level jobs in the food service industry. In-depth instruction is given in quantity food preparation and management. The students operate a restaurant that serves the Melrose faculty.



Child Care Services

Child Care Services is a class in which students learn the basic skills needed to work at a day care center or a preschool facility. Child Care Services is a two year course in which the students learn how to tutor preschoolers on various activities including identifying objects and counting. The preschoolers attend the class four days a week beginning in September.

French/Spanish

French and Spanish are the foreign language courses offered at Melrose. Both courses involve the study of the fundamentals of the language through vocabulary, grammar structure, and pronunciation. Students are also introduced to the culture of the countries where the language is spoken.

Health and Physical Education

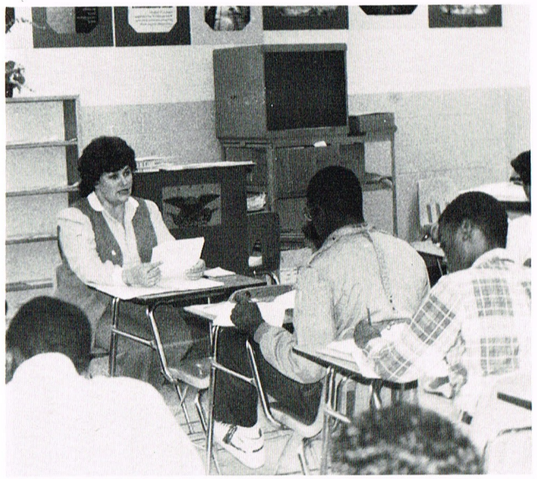
Health is a course which reinforces the importance of the mental, personal and nutritional aspects of individual well-being. The course stresses the effects of environment, disease, and substance abuse upon one's body, and also provides instruction in the anatomy and physicology of the human body. The physical education program provides activities for students in team sports, track and field, fitness and conditioning, rhythms, and gymnastics.

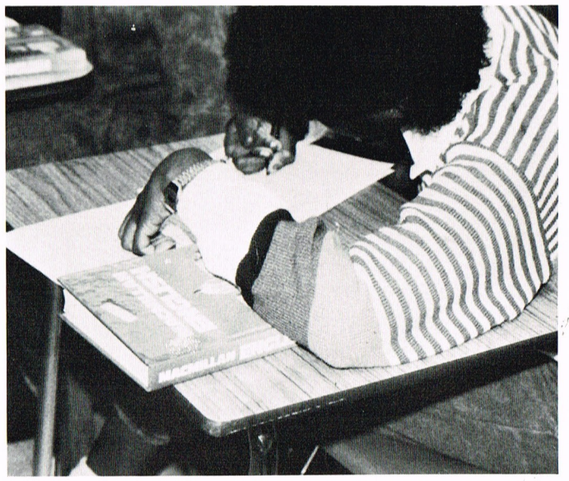
Horticulture

Horticulture is the science of producing and using ornamental plants, fruits, and vegetables for various purposes. The course offers an introduction to numerous horticulture careers, job preparations, greenhouse systems/operations, plant pests, and plant diseases.

Language Arts

All Language Arts courses are designed to help students master essential skills in reading, speaking, and writing. Grammar, composition, and vocabulary instruction are all emphasized. Emphasis is also placed on the writing process beginning with experience-based writing and moving into formal compositions that include reports and research papers. Literature is studied in more depth as the students enter the eleventh and twelfth grades.



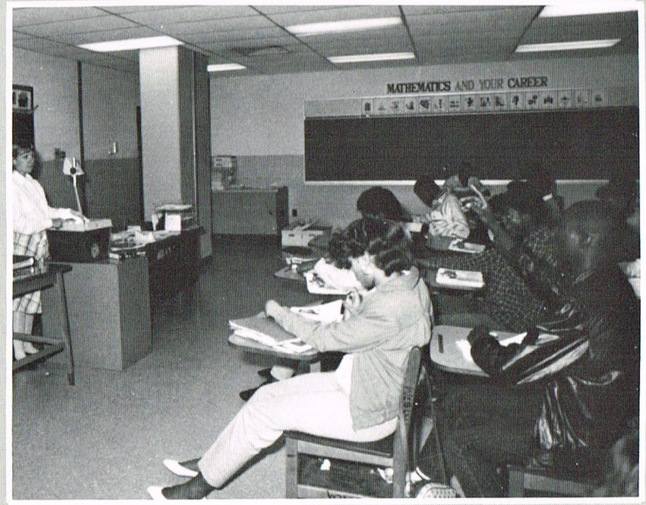


Marketing

Marketing/Distributive Education is a course designed for high school students with a career interest in the area of marketing, merchandising management and distribution. Classroom instruction enables the students to gain a basic understanding of marketing techniques and career opportunities. Activities include field trips, guest speakers, competitive events, projects, and students research based on the individual's occupational goal.

Mathematics

All mathematic courses are designed to meet the mathematical needs of students who require strengthening of computational skills and concepts. The curriculum provides a review of computational skills, measurement, percent, geometry, problem solving, squares and square roots, along with introductory algebra and basic and advanced consumer applications.



Vocal and Instrumental Music

Vocal Music introduces basic vocal production and sight singing techniques with emphasis on developing and expanding the range of the voice. Instrumental music emphasizes the development of ensemble and solo performance skills and using these skills in expressive musical performance. Planned listening activities are programmed to develop analyzing and criticizing skills. Public performances and participation in festival activities are required for instrumental and vocal music students.

Photography

This course is designed to introduce students to photgraphic history, equipment, chemicals, shooting and processing techniques, and essential elements of the photography world. Students gain hands-on experience by shooting action, group and portrait photographs using black and white film, as well as color. Emphasis is placed on special photographic projects, darkroom techniques, and entrepreneurship.

Social Studies

Social Studies, which includes various courses, is the study of human, social relationships — past and present. The Social Studies courses offered at Melrose are Civics, American History, Practical Law, Economics, Contemporary Issues, World History, Sociology, and American Government. The main objective of the Social Studies program is to prepare active citizens to function well in a multi-cultural, highly technological society, where politics play an important role in our everyday lives.

Science

Science involves the study of the classification, structure, patterns and changes in matter and the relationship between matter and energy. Every aspect of science is studied and investigated through laboratory experiences. Experimentation and guided reasoning develops the process of scientific inquiry by students and enables them to interpret scientific knowledge. Practical applications and career opportunities are emphasized.

Advanced Placement History

Students who study intensely with an emphasis on research and interpretation enroll in the Advanced Placement History Class. The class is small, and each student is expected to participate in daily classroom discussions. A college textbook is used and assignments and tests are on the college level.

Advanced Placement Biology/Advanced Placement English

The A.P. Biology course offers advanced instruction in the study of living things — their structure, function, and interaction with the environment. Emphasis is placed on the use of the scientific process through laboratory, library, and field experiences.

In the A.P. English program at Melrose, students are involved in the study and practice of writing and the in-depth study of literature. Through speaking, listening, reading, and basically through the experience of their own writing, students become aware of the many resources of language.

Coronation

The coronation was beautiful
It was exciting for all,
An occasion to be proud
An occasion to stand tall.

The grade royalty was honored
Along with the sports queens
However, Carmen and Chuck
Were stars of the scene.

Many paid homage
When given the chance.
Some through singing
Others through dance.

Hail to Queen Carmen!
Hail to King Chuck!
Congratulations
And the best of luck!

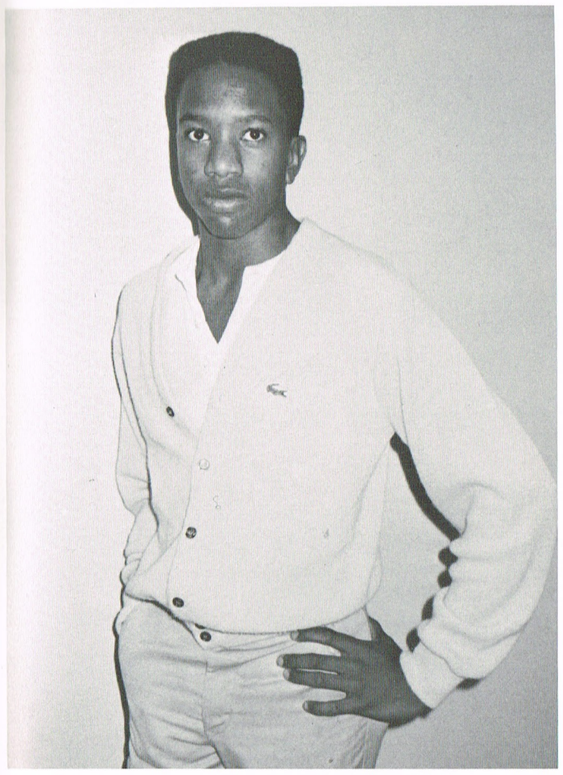
Golden Pageant

The theme of this year's pageant
Was, fittingly, "Treasure Your Gold."
Its contestants were considered
To be both brave and bold.

They stepped upon the stage
And truly gave their best
Each one trying hard to be
Better than all the rest.

They sang or they danced
And they modeled clothes, too.
They received much applause
That was appropriately their due.

When the final curtain closed
And the tallying of votes was done,
The winners were Queen Carmen Earl
And King Chuck Henderson.



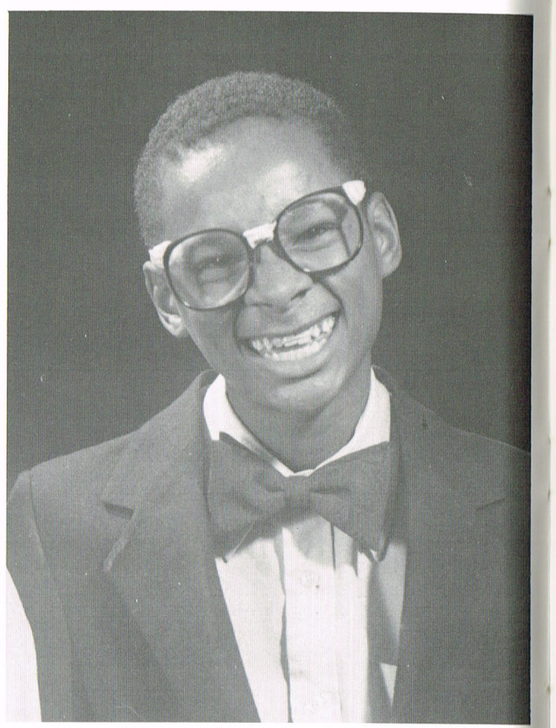
Spirit Week

Homecoming at Melrose High
was an eventful week.
The spirit of the Golden Wildcats
was at its highest peak.

Monday was for Nerds.
Everyone looked like Pee Wee Herman.
Tuesday was Rambo Day
For all the soldiers and gunmen.

Wednesday was Soul Day
With afro wigs and stacks.
On Thursday we all dressed up,
Everyone came as sharp as tacks.

But Friday was the best day
Because we all wore maroon and gold.
We exhibited true Wildcat spirit;
Everyone, both young and old.



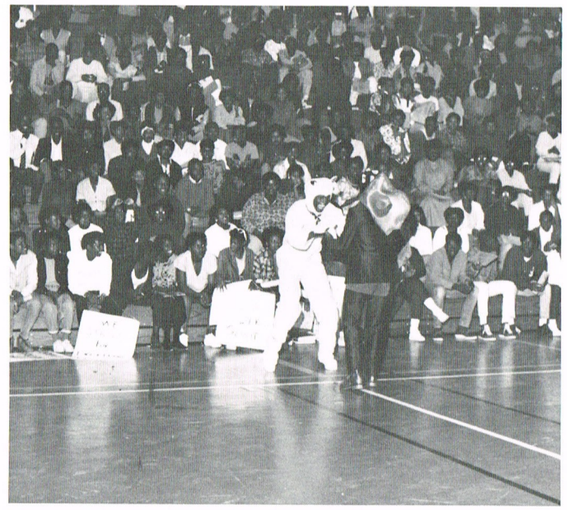
Pep Rally

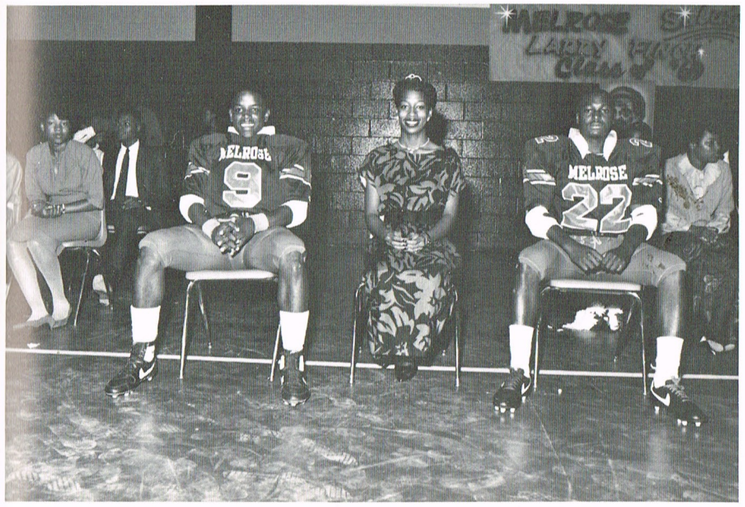
The Pep Rally was Friday;
Everyone wore maroon and gold.
Throughout the student body,
The Wildcat spirit flowed.

We honored an alumnus
By the name of Larry Finch.
This year he will be head coach
On the MSU bench.

Priscilla Dodson, a member of our royal court,
Was our gracious Homecoming Queen,
Together with Mr. and Miss Melrose
They, too, were honored on the scene.

But amist all the honoring,
There was a roar in the Wildcat's Den.
It was the Wildcats shouting
"We're Number 1! Number 1 'til the end.





Homecoming Game

Our Homecoming Game was played
On the seventeenth of October.
However, we were not the victors
When the game was over.

The homecoming court was present
And our band performed their best.
Driven in a gold limousine
Priscilla outshone the rest.

We may not have won that night
But Melrose never gave up.
We were superior because we displayed
Good sportsmanship and conduct.

Memphis, Tennessee 38114

Dear Mrs. Cohen:

The children and staff of Orange Mound Day Nursery enjoyed having the Student Council entertain the children, December 12, 1986. The children had a wonderful time playing and singing. The program was very helpful and most of all the children had a beautiful time talking to Santa.

After lunch we served the children cookies and milk. They discussed the colors, shapes, etc.

Again, I want to say thank all who played a part in bringing joy to the boys and girls at Orange Mound.

Sincerely,

Marian Brown

Then

In 1981 these enthusiastic seventh graders entered the halls of Melrose High School.

Now

Six years later they have attained their educational goals and are ready to undertake new challenges.

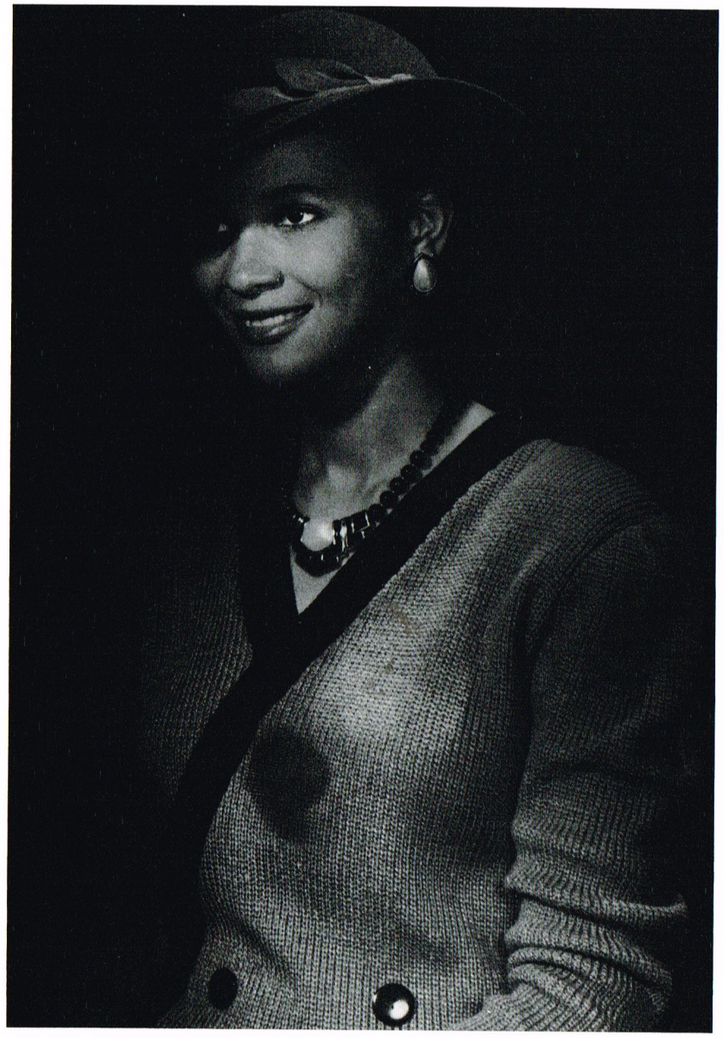
Stranger Meets A Friend And A Sinner Meets God!"

Sincere Congratulations
to
Delmelodia Cheyenne Felix

From
The Members of this Congregation



To Lori,

I am very proud of your accomplishments during these sometimes turbulent years of growing up. You have laid a wonderful foundation for the building of your future in life. As you construct the building itself throughout the years to come, remember to make it strong and steady in order that life will be rewarding. I love you very much.

Congratulations,
From Your Mother

Editors' Message

We, the members of the 1987 Golden Wildcat annual staff, have truly enjoyed the challenging and rewarding experience gained in the production of a yearbook unsurpassed by any other. Our main objective was to reflect through pictures as many memorable activities, events, and achievements of this school year as possible. Through hard work, dedication, cooperation and team effort, we have attempted to create a yearbook that will keep the memories of 1986-87 alive.

A special thanks to our advisors, Mrs. Billie Crawford and Mrs. Anne Suitor, who gave their extra time and effort in helping, guiding, and advising the staff in planning the yearbook. We would also like to extend our sincere gratitude to the administration, staff, photography students, and the entire student body for their cooperation and support.

The yearbook staff would like to wish the graduating class of 1987 much success and happiness. May your future be the fulfillment of your dreams.
